

650GT

The Grand Tourer

Go the grand distance in a sporting spirit. Whether it's leaning into endless apexes, inhaling craggy coastal corners or devouring day-long distances, the 650GT is ready and waiting.

Adding to its grand-touring arsenal is a flexible 650cc parallel-twin engine, relaxed ergonomics, large height-adjustable sports touring screen, and optional hard panniers for those last-minute getaways.

ENGINE

ENGINE TYPE	Liquid-cooled, fuel-injected, DOHC, eight-valve, four-stroke parallel twin with a counter balancer
CAPACITY	649.3cc
